PROPOSED BUILDING

Containing:

- Resident Staff Quarters
- Students' Living Room
- Dormitories
- Reception Room
- Home Economics Department
- Dining Room
- Kitchen, Storerooms, etc.

# SOME FACTS ABOUT THE SCHOOL.

The 25th Anniversary of the school was celebrated by several memorable occasions toward the end of the school year 1946-47.

On the opening day October 23, 1922 and subsequently during the first year fourteen students were enrolled, two of whom were boarders.

The enrollment for the 25th year (1946-47) was 26, fifty two of whom were boarders.

The school curriculum has been enlarged during these years so as to care for every possible applicant. A complete Elementary and Preparatory education is given. The Secondary (High School) education prepares girls for University entrance or for business work. At the same time emphasis is placed on homemaking so that each girl will be prepared for her ultimate career—a home maker.

Emphasis is always placed on the spiritual life and moral character of the girls. The work of the Academy for the young womanhood of Cyprus will continue as long as it is needed and as long as it has the support of the people of the Island.

The Academy for Girls owns no buildings, but has rented buildings for twenty five years. The Silver Jubilee should convince everyone that this should cease as soon as possible so that the school can carry on in an actual school building instead of using very inadequate houses.

The site is ready in a very suitable and attractive location. Around £3360 are on hands as a start. An estimated £25,000 are needed for building, exclusive of equipment. (This is only a rough estimate, but is included in order to give some idea of the possible cost) Though the sum seems large, let us do all we can to reach it. Can YOU be counted on to help in this project so that the Academy for Girls may continue to serve the young womanhood of Cyprus in the future as she has done in the past?
